1. Title: Education beyond the Classrooms

A specially designed division for the all-round development of the students during their stay in the campus.

2. Objective:

- Identify effective teaching and learning tactics outside of the classroom.
- Enhance the educational experience through creative and engaging knowledge building ways.
- Promote community service and social responsibility among students
- Enable students to apply theoretical knowledge in practical, real-life situations.
- Foster the development of a diverse set of skills, including communication.

3. The Context:

Education Beyond the Classrooms (EBC) at ABR CET encompasses any activities that are intentionally designed to improve the educational experience. It includes Field trips, internships, and practical projects can enhance real-world application of theoretical knowledge and everything from the academic curriculum to music, theater, athletics, community participation, performance opportunities, and community service activities.

Students need to learn how to be socially responsible. By participating in social activities, students can take advantage of opportunities and benefits all over the world. They also know what it takes to be a responsible citizen.

The ability to control things directly affects how students feel about themselves, their emotional well-being, physical health and independence. Some of the life skills students need to master include emotional, health, financial, relationship and academic skills. Knowing some basic life skills can help students avoid mental health problems or help them manage them better.

4. The Practice

ABR College of Engineering and Technology (ABRCET) believe in providing an all-encompassing educational experience that extends beyond the traditional classroom setting. At the heart of ABRCET's educational philosophy lies the firm belief that a student's holistic development is best achieved through a harmonious blend of academic learning and a diverse range of extracurricular activities. These activities serve as a platform for students to showcase their unique interests and talents, acting as a true testament to their individuality. With this in mind, ABRCET has pioneered the concept of Education beyond the Classrooms, an initiative dedicated to bridging the gap between teachers and students, as well as fostering collaboration among students from different academic disciplines. EBC, as it is affectionately known, brings together a symphony of traditional, contemporary, and socially conscious events that captivate students' senses and invigorate their passion for learning. In this picturesque landscape, EBC creates an atmosphere where students can discover their innate potential, channel their inner creativity, and tread the path of growth and self-discovery.

By immersing themselves in these multifaceted activities, students embark on an exciting journey that transcends the traditional confines of a classroom. They actively participate in activities that embrace symbiotic relationships, honor cultural traditions, and address pressing social issues with grace and empathy. In the realm of EBC, each day is an opportunity for students to explore new horizons, engage in meaningful dialogue, and collaborate with like-minded individuals. With every step, they become more attuned to the diverse world around them, gaining invaluable skills, and becoming true global citizens. Through this unique blend of academic excellence and experiential learning, ABRCET ensures that the spark of knowledge is kindled within each student, illuminating their path to future success and fostering an unwavering commitment to making a positive impact in the world. The vivid participation of the students helps them to develop their leadership skills, commitment towards the society and multi-National competence. EBC conducts different activities which includes symbiotic, traditional and social forms. ABRCET presents students with numerous

avenues to delve into practical applications, hands-on experiences, and immersive learning opportunities.

In addition to traditional classroom learning, ABR CET offer various educations beyond the classroom activities to promote holistic development. These activities included:

- ❖ Cleanliness
- ❖ Green environment & tree plantation
- ❖ Experiential Learning through field trips, and real-world projects to reinforce theoretical knowledge with practical application.
- ❖ Internships to expose students to real-world work environments.

5. Evidence of Success

Education beyond the Classrooms activities implemented and lead to success at ABR CET:

- ❖ Engaging in outreach activities: ABR CET can encourage and facilitate students to engage in outreach activities that benefit the community. These activities can range from conducting classes for underprivileged students to organizing environmental awareness programs. The college can work with local newspapers to report on the students' efforts, which can help raise awareness and encourage more students to participate.
- ❖ Industrial and social visits: The College can make industrial and social visits a compulsory part of the curriculum. The College planned regular trips to industries, factories, and other organizations and also conducted social visits to locations such as orphanages, old-age homes, and other places to see how ABR CET can support the community.

Website: www.abrcollege.com E-mail: principal.hj@abrcet.edu.in abrcet2008@gmail.com

- ❖ Promoting artistic fields: The College provided necessary resources and opportunities to students who are interested in pursuing careers in sports, theatre, music, and other artistic fields. This can include providing extracurricular activities, access to specialized training, and opportunities to participate in competitions and shows both inside and outside the college.

By implementing such activities, ABR CET demonstrated the measurable success in promoting Education beyond the Classrooms and providing students with a well-rounded and holistic educational experience.

6. Problem Encountered and Resources Required

To ensure the successful implementation of Education beyond the Classrooms,

- ❖ A special emphasis should be placed on the faculty that will lead these activities.
- ❖ The faculty should be adequately trained to organize productive and meaningful activities that provide students with hands-on experience.
- ❖ They should be equipped with the necessary skills to provide students with proper orientation to carry out their duties and responsibilities effectively

1. Title of the Practice: Nurturing Personalities through a Value-Based Education System

A specially designed division for the all-round development of the students during their stay in the campus.

2. Objectives of the Practice: Promoting Emotional Intelligence and Interpersonal Skills

ABRCET offers training programs that focus on developing emotional intelligence and interpersonal skills. These programs included workshops on self-awareness, empathy, active listening, conflict resolution, and building healthy relationships. The system promotes emotional intelligence and enhances interpersonal skills. Value-based teachings encourage students to understand and acknowledge their emotions, and develop empathy towards others. By providing opportunities to engage in collaborative activities, group discussions, and promoting effective communication, this education system equips students with the ability to build strong relationships, resolve conflicts constructively, and exhibit leadership qualities, contributing to their overall personality development.

3. The Context: Cultivating Responsible Citizens: Beyond Technical Excellence

This institution recognizes that true education extends beyond technical expertise. While equipping students with in-demand skills is crucial, fostering ethical values and responsible citizenship forms the bedrock of our philosophy. We believe in nurturing individuals who contribute meaningfully to their communities and the nation. In the realm of education, it is widely understood that mere technical knowledge and subject expertise cannot alone shape individuals into exemplary beings and responsible citizens. Recognizing educational institutions bear a primary responsibility to instill in students the values and ethics that propel them toward personal growth and meaningful contributions to their communities and country.

Acknowledging the socio-cultural barriers faced by students, college management has undertaken a proactive approach to cultivate a competitive edge on the skilled platform. Taking special care to identify and uplift students

from less privileged communities and areas, the HoD have introduced training programs in areas such as web designing, python programming.

4. The Practice:

The institution has taken a commendable step by establishing a dedicated cell to impart values education. Through this initiative, students are guided towards a path of moral and ethical growth. In addition, various personality development programs are conducted, aimed at nurturing well-rounded individuals who possess both technical expertise and strong character. Blood donation camps, organized by the institution, instill compassion and empathy among the students, promoting a culture of selflessness. The institution's unwavering commitment to human values has nurtured a student body that strives for excellence in all aspects of their lives. Students have seamlessly organized various cultural events, displaying their creativity and talent without any hint of misconduct. This is a testament to the institution's relentless focus on instilling values of decency and respect, equipping students with the emotional maturity and ethical grounding to navigate complex social dynamics.

The institution understands the significance of a secure and all-encompassing environment, and therefore has established strict regulations against any form of ragging. These measures provide students with the freedom to pursue their academic aspirations without any unpleasant experiences. Additionally, initiatives aimed at promoting gender equality have been introduced, creating a culture where every individual is respected, empowered, and given equal opportunities. Fire and road safety programs have also been implemented to prioritize the well-being of students, equipping them with essential knowledge to ensure their personal safety. The institution goes beyond academic pursuits, organizing various cultural events that celebrate the rich diversity of its student body. These events not only promote cultural exchange but also serve as platforms for nurturing talents and fostering a sense of belonging. Additionally, extending a helping hand to students in surrounding colleges showcases a strong commitment to community engagement, uplifting and empowering the larger educational ecosystem. Co-curricular activities are an integral part of the institution's curriculum, nurturing various facets of personality development. Engaging in quiz, debate, and essay-writing competitions facilitates knowledge

assimilation and the development of excellent communication skills. Field trips and exposure programs allow students to bridge the gap between theory and practical application, enriching their learning experience and fostering a deeper understanding of the subjects. ICT-enabled teaching-learning methods are employed, fostering a dynamic and engaging educational experience. Continuous evaluation and research projects offer opportunities for students to deepen their knowledge and hone their critical thinking skills. While attention is given to advanced learners, ensuring that all students receive the necessary support.

5. Evidence of Success:

Deep-rooted within the college community, our students demonstrate an unwavering commitment to human values, embodying perseverance in their daily pursuits. These capable learners exhibit a remarkable ability to independently organize a diverse array of cultural events with the utmost integrity. It is evident that the Value-based education system implemented here has had a significant impact on the personality development of our students. One crucial aspect that stands out is the perseverance of human values displayed by our learners. They have internalized the importance of ethical conduct; we have observed a remarkable absence of misconduct during different cultural events organized by the students themselves. It is worth highlighting that not a single instance of ragging has tarnished the premises. Engaging in these activities has a particularly impactful effect on our students. The absence of any reported cases of ragging on the college premises is a testament to the positive influence of our value-based education system. The students' improved communication and interpersonal skills, along with their strengthened emotional intelligence, make them attractive candidates for prospective employers. In conclusion, the value-based education system implemented in our college has proven to be highly beneficial in fostering the personal growth and development of our students.

6. Problems encountered and resources required:

Juggling academics, extracurricular activities, and events creates a demanding schedule for both students and organizers. Effective time management remains a pressing concern, as the multitude of academic and extracurricular activities

run concurrently. Collaborative efforts involving the principal, heads of departments, and staff have been instrumental in ensuring students can engage effectively in the multitude of opportunities available. Their involvement has enabled a seamless integration of events, maximizing students' participation while ensuring their academic obligations are not compromised. ABR CET focuses on the issue of time management, organizing events can be a daunting task, as managing crowds can prove to be a challenge. However, by employing collective efforts, the college administration has successfully tackled this issue. The principal, along with the heads of departments, has actively engaged with parents to disseminate information regarding the importance of their participation in shaping the future of their Students.

Value based education system in our college:

Projectors, provide a visually stimulating learning experience for students. Visual aids can help students better understand and retain information, making complex concepts easier to grasp.

Employability Skills on

On

Introduction to Employability Skills

Time: 2:00pm To 04:00pm

Students: B. tech III, Year, MBA- I-I Semester Students

Resource Person: P. BALAKRISHNA, Assistant Professor, H&S Department, ABR CET.

COURSE OUTCOMES:

- ❖ Describe the significance of employability skills for the modern workforce and the workplace of the future.
- ❖ Enumerate several GOI and private portals pertaining to education and employability, along with their utilization.
- ❖ Do some research and make a list of the many industries, trends, skills needed, and possibilities accessible.

SYLLABUS:

Module-1

Recognise the importance of employability skills in fulfilling the demands of the modern labour market and the future of work. Locate and investigate pertinent portals for learning and employability. Do research on the various industries, employment trends, most recent skill requirements, and opportunities that are available.

Module-2

Employability skills are a supplement to hard skills, which are prerequisites for a particular employment. It also enhances a variety of other pursuits, both within and beyond the workplace. These days, businesses are looking for employability skills more and more. In addition to the prerequisite standards. In several professions, employability skills have shown to be more significant over the long run than occupational skills. Employability skills include things like work ethics, IT proficiency, behaviour, and communication.

ACTIVITY ORGANIZED REPORT

Date: - 22-06-2022

Name of the Activity Organized	Employability Skills - I
Title of the Course	Introduction to Employability Skills
Branch / Class / Semester	All Departments, /III, B.Tech / V Semester
Academic Year	2022-23
Activity organized for	B. Tech IV Semester Students
Coordinators	Co1: V. KHADAR BASHA Co2: V. JYOTHI SRINIVAS
Place of the Activity	Seminar Hall – I, Block – I, ABR College of Engineering & Technology, Kanigiri.
No. of Students Enrolled	257
No. of Students Completed the Course	249
Name and Designation of the Expert	P. BALAKRISHNA, Assistant Professor, H&S Department, ABR CET.
Summary of the Activity	The Employability Skills course for the academic year 2018-2019 - for ODD semester was successfully organized. The course covered. A total of 206 students are registered for the course and 206 students have successfully completed the course. The objective of this course was to make students ready for real-life and industry-level projects.

ACTIVITY ORGANIZED REPORT

Date: - 27-07-2018

Name of the Activity Organized	Employability Skills - I
Title of the Course	Aptitude- I
Branch / Class / Semester	All Departments, /III, B.Tech / V Semester
Academic Year	2018-19
Activity organized for	B. Tech V Semester Students
Coordinators	
Place of the Activity	Seminar Hall – I, Block – I, ABR College of Engineering & Technology, Kanigiri.
No. of Students Enrolled	206
No. of Students Completed the Course	201
Name and Designation of the Expert	Dr. P. PRABHAKARAN, Associate Professor, CSE Department, ABR CET.
Summary of the Activity	The Employability Skills course for the academic year 2018-2019 - for ODD semester was successfully organized. The course covered. A total of 206 students are registered for the course and 201 students have successfully completed the course. The objective of this course was to make students ready for real-life and industry-level projects.
